

GATE & ACCESS CONTROL

MAXIMIZE SECURITY AND MANAGE BUILDING ACTIVITY
One low monthly fee with no upfront equipment costs

Stealth Monitoring is North America's Leader in Proactive Remote Video Monitoring. We Use the Latest Technology and Highly Skilled Video Analysts to Monitor Commercial Properties for Unusual Activity

Stealth Gate & Access Control Features:

Two-way Communication

Gate Access Control

Manage Building Activity

Live Inspection of Deliveries

Driver Verification

Document and Time Stamp Entry and Exit Traffic

Stealth offers remote gate and integrated access control solutions for shopping centers, apartment buildings, transportation & logistics centers, warehouses, retailers, construction sites, office buildings and storage facilities.

Using a combination of video surveillance, specialized access control and visitor tracking software, our trained security operators can perform the same functions as a security guard, but at a fraction of the cost.

Our tailored solution allows you to control who comes in and leaves your property to deter crime and ensure the safety of employees and tenants.

Integrated access control systems provide users with a convenient way to manage employees and building activity. In addition to reducing the risk of unauthorized activity, they can be used to create detailed reports that highlight employee misconduct and help ensure company guidelines are adhered to.

Our technology can often work with your current systems and can be combined with part-time guard services or other remote video monitoring solutions to best meet your needs.

Detect

Control who enters and exits your property, as well as verify driver credentials.

Respond

Property owners and managers are notified if suspicious activity is detected.

Update

Get detailed reports that highlight employee misconduct and help ensure adherence to company guidelines.

Leaders in Remote Video Monitoring & IP Security Solutions

THE STEALTH ADVANTAGE

Real-time Health Checks & 24-hour IT Support

Recurring diagnostic checks on equipment and site inspections

Site Analysis & System Design

Consultation and customized solutions to enhance security measures

High-Definition Surveillance

In-house software development and installation team work together to provide top-quality products and technical support

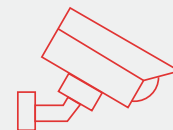

Operational Management Tools

Customized service protocols to meet client-specific requirements

Video Analysis

Proactive video investigation team performs video reviews for security and operation events

Live Remote Video Monitoring

Customized monitoring solutions: live video monitoring, analytic event-based monitoring and video guard tours

SERVING CUSTOMERS ACROSS NORTH AMERICA
