

# THERMAL IMAGING

See the hard to see.

Stealth Monitoring is North America's leader in proactive remote video monitoring. We use the latest technology and highly skilled Video Monitoring Operators to surveil properties for unusual & unwanted activity.

## Stealth Thermal Imaging Cameras feature:

Longer detection ranges

Lower installation cost

Unaffected by weather

Coverage Improvement

Clear detections

No ambient lighting required

Thermal cameras are an ideal choice for monitoring difficult or large outdoor environments, like perimeters, where lighting is minimal. Because they sense objects based on the heat they radiate, they can see things that the human eye and standard cameras cannot, providing clear images in daylight, darkness, shadows and inclement weather.

Criminals like to use the cover of night and objects like bushes and trees to lurk behind. Combined with video analytics, thermal imaging cameras can easily cover large perimeters to detect if someone is hiding and alert our trained operators.

### Benefits of Thermal Cameras:

- Longer detection ranges
- Improve overall coverage
- Better coverage for lower installation cost
- Unaffected by weather
- No ambient lighting required
- Clear detection images, day or night

*Choose an industry leader with over 100,000+ cameras monitored every night.*

### DETECT

Using Stealth's thermal imaging, criminal activities are identified by our Video Monitoring team.

### RESPOND

Operators can send audio warnings through on-site speakers and call Police.

### UPDATE

Property owners & other key contacts are notified when there is an incident on your site.

# Leaders in Remote Video Monitoring & IP Security Solutions

## THE STEALTH ADVANTAGE

### Site Analysis & System Design

Consultation and customized solutions to enhance security measures

### High Definition Surveillance

In-house software development and installation team work together to provide top-quality products and technical support

### Live Remote Video Monitoring

Customized monitoring solutions: live video monitoring, analytic event-based monitoring, and video guard tours

### Operational Management Tools

Customized service protocols to meet client-specific requirements

### Video Analysis

Proactive video investigation team performs video reviews for security and operation events

### Real-time Health Checks & 24-Hour IT Support

Recurring diagnostic checks on equipment and site inspections

**SERVING CLIENTS  
ACROSS NORTH AMERICA**

**VERTICALLY INTEGRATED**

**REDUNDANT LIVE VIDEO  
MONITORING CENTERS**

Technological advancements with the internet and sensory responses have allowed Stealth to revolutionize the security industry. From how security is managed to how security duties can be performed, Stealth presents you with an all-in-one security solution that uses remote video monitoring capabilities to provide a wide range of services.

- We will not charge hidden fees.
- We will educate clients on technical concepts.
- We will design security plans according to individual site needs.
- We will strive to provide the latest technology.
- We will demonstrate integrity.
- We will take accountability.
- We will deliver unmatched customer service.
- We will handle all cases in a timely manner.
